

ZeroWeave®

Airtight textile duct material

ZeroWeave is the right solution for applications where you need to move large volumes of air over a long distance and still maintain optimum air mixing. ZeroWeave can be combined with complete range of hole pattern types.

ZeroWeave is an airtight, low-maintenance material with a wide range of applications in vertical farming.

- ZeroWeave is an airtight material so the filter efficiency is zero. All the air is distributed through holes or nozzles
- No PVC, halogens or other harmful substances. The material can be lasercut to improve the finished quality
- Fire tested acc. to EN13501 B-S1-d0 without any finishing treatment
- No condensation issues when used in environments below 90% RH
- Washing not needed in order to maintain functionality. Only for hygienic and aesthetic reasons.
